

Greenwood Vitrified Hotel China

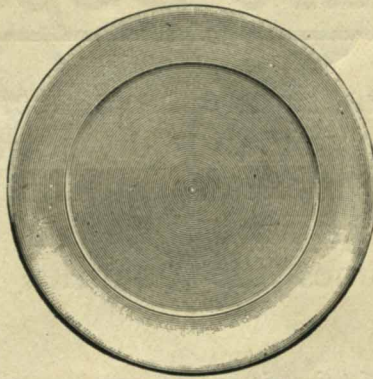

A tough, hard, white china, thoroughly vitrified. Does not craze and when chipped or broken will not discolor on the broken edge. A standard, plain white Hotel and Restaurant service.

The articles indicated as "Thick" are heavy weight, for Restaurants, Lunch Rooms, Summer Hotels, etc.; the "Half-thick" items are medium weight for regular Hotel or Restaurant service and the "Rolled Edge" pieces are made with the outer edge rolled over into an extra thickness, this style being preferred by many customers.

Greenwood Vitrified Hotel China

We have endeavored to provide the greatest possible variety of cups and saucers for the Hotel trade, and we believe that the diversity of shapes offered here will enable any hotel or restaurant man to choose exactly the style he desires. Every article is "First Selection" genuine Greenwood China, thoroughly vitrified and non-crazing. By noting the capacities given, the hotel man can figure exactly the quantity of coffee or tea required to serve his guests. *Sizes Given Indicate Actual Capacities of the Cups.*

7092 15 in. \$4.75

Greenwood Vitrified Hotel China

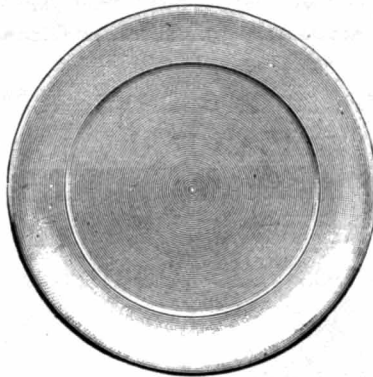

A tough, hard, white china, thoroughly vitrified. Does not craze and when chipped or broken will not discolor on the broken edge. A standard, plain white Hotel and Restaurant service.

The articles indicated as "Thick" are heavy weight, for Restaurants, Lunch Rooms, Summer Hotels, etc.; the "Half-thick" items are medium weight for regular Hotel or Restaurant service and the "Rolled Edge" pieces are made with the outer edge rolled over into an extra thickness, this style being preferred by many customers.

Greenwood Vitrified Hotel China

We have endeavored to provide the greatest possible variety of cups and saucers for the Hotel trade, and we believe that the diversity of shapes offered here will enable any hotel or restaurant man to choose exactly the style he desires. Every article is "First Selection" genuine Greenwood China, thoroughly vitrified and non-crazing. By noting the capacities given, the hotel man can figure exactly the quantity of coffee or tea required to serve his guests. *Sizes Given Indicate Actual Capacities of the Cups.*
